DETAILED ACTION

This Office Action is a response to the Applicants' Amendment filed April 27, 2007. In virtue of this amendment, claim 8 is cancelled; thus, claims 1-7 and 9-13 are currently presented in the instant application.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas J. Bean on May 8, 2007.

The application has been amended as follows:

10. (currently amended) A self-ballasted fluorescent lamp comprising:

a fluorescent lamp;

a lighting circuit having a one-package switch, inductors, and capacitors, said one-package switch containing in a single package, a pair of field effect transistors that serve as inverter switches for driving the fluorescent lamp, said field effect transistors being complementary;

a circuit board having a first face facing away from said fluorescent lamp and a second face facing towards said fluorescent lamp, said first face having at least both a smoothing capacitor and a current-limiting inductor, mounted thereon; and

Art Unit: 2821

a base disposed at the second-face side of said circuit board; wherein:

said one-package switch is a generally rectangular surface mounting device with a length and width respectively not exceeding 6 mm; and said lighting circuit is contained in said base, and paired drain terminals for each complementary field effect transistor are arranged side-by-side and project from one side of the package, a gate terminal and source terminal for each complementary field effect transistor are arranged side by side and project from an opposing side of the package.

Allowable Subject Matter

2. Claims 1-7 and 9-13 are allowed.

This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e). In this case, the substance of applicant's remarks in the Amendment filed on April 27, 2007, in pages 6-8 with respect to the claim limitations point out the reason claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 1302.14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Inquiry

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dieu Hien T. Duong whose telephone number is 571-272-8980. The examiner can normally be reached on Monday - Friday, from 8:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglas W. Owens can be reached on 571-272-1662. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
